DISCUSSION: The Slaughterhouse Canyon Plant is a rock crushing and asphalt operation facility. The facility is located at 12560 Highway 67, Lakeside, California.

On February 10, 1994, the Regional Water Quality Control Board, San Diego Region, (Board) adopted Order No. 94-06, *Waste Discharge Requirements for Asphalt Incorporated, San Diego County*. The Order established waste discharge requirements for a rock crushing and asphalt operation facility.

By application dated April 3, 2002, Mr. Tom Ferrell, Hanson Aggregates PSW, Inc., notified the Regional Board that the ownership of Slaughterhouse Canyon Plant (and thus the responsibility for compliance with Order No. 94-06) had been transferred to Hanson Aggregates PSW Inc., on May 4, 2001. Hanson Aggregates has been responsible for compliance with Order No. 94-06 since that time. Staff has provided to Hanson Aggregates a copy of Order No. 94-06 and a copy of the tentative addendum.

Tentative Addendum No. 1 to Order No. 94-06 would, if adopted, establish responsibility of Order No. 94-06 to Hanson Aggregates PSW, Inc.

Hanson Aggregates has been in compliance with the requirements of Order No. 94-06 since May 2001. The previous owner, Asphalt Inc., failed to submit the 1999-2000 Annual Report.
